1   About This Statement

Integrating the Healthcare Enterprise (IHE) is an international initiative to support vendor-independent interoperability between different healthcare systems. Interoperability is periodically tested at so-called *IHE Connectathons*, where vendors prove the successful interconnection of their software with different systems from other vendors. Successful test results of implemented IHE Profiles are published as IHE Integration Statements.

In order to satisfy the highest-quality requirements, ITH icoserve technology for healthcare GmbH has committed to periodically testing their product *syngo*.share at IHE Connectathons to confirm the compliance with current IHE Integration Profiles.

- **Vendor**
  ITH icoserve technology for healthcare GmbH

- **Product Name**
  syngo.share

- **Version**
  VA32C

This product implements all transactions required in the IHE Technical Framework to support the IHE Integration Profiles, Actors and Options listed on the following pages.

i   **Note**
Profiles are tested regularly at EU and/or US Connectathons.

3　Actors and Profiles

Profiles are managed by different IHE Domains. The following tables show the profiles (and their acronyms) implemented and tested by ITH icoserve technology for healthcare GmbH per domain:

- Profiles in Radiology (RAD)
- Profile in Cardiology (CARD)
- Profiles in IT Infrastructure (ITI)

Table 2: Profiles in Radiology (RAD)

Acronym	Profile
ARI	Access to Radiology Information
CPI	Consistent Presentation of Images
ED	Evidence Documents
IOCM	Imaging Object Change Management
IRWF.b	Import Reconciliation Workflow
KIN	Key Image Note
MAMMO	Mammography Image
NMI	Nuclear Medicine Image
PDI	Portable Data for Imaging
PIR	Patient Information Reconciliation
REM	Radiation Exposure Management
SINR	Simple Image and Numeric Report
SWF.b	Scheduled Workflow.b
XDS-I.b	Cross-Enterprise Document Sharing for Imaging

Table 3: Profile in Cardiology (CARD)

Acronym	Profile
ED-CARD	Cardiology Evidence Documents

Table 4: Profiles in IT Infrastructure (ITI)

Acronym	Profile
ATNA	Audit Trail and Node Authentication
CT	Consistent Time
PAM	Patient Administration Management
PDQm	Patient Demographics Query for Mobile
PDQ/PDQV3	Patient Demographics Query/Patient Demographics Query HL7 V3
PIX/PIXV3	Patient Identifier Cross-Referencing/Patient Identifier Cross-Referencing HL7 V3
XDS.b	Cross-Enterprise Document Sharing
XUA	Cross-Enterprise User Assertion
